

Input and Output operation
functions

Blocking mode Polling

```
graph RL; A[Blocking mode Polling] --> B[Input and Output operation functions];
```

The diagram consists of two rectangular boxes. The box on the right is shaded gray and contains the text "Blocking mode Polling". A horizontal arrow points from the right side of this box to the left side of a white box on the left. The white box contains the text "Input and Output operation functions" arranged in two lines.
