

SMBUS\_Exported\_Functions

Peripheral State, Mode  
and Error functions

```
graph RL; A[Peripheral State, Mode and Error functions] --> B[SMBUS_Exported_Functions];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from right to left. The box on the right is shaded gray and contains the text 'Peripheral State, Mode and Error functions'. The box on the left is white with a black border and contains the text 'SMBUS\_Exported\_Functions'. A black arrow points from the right box to the left box, indicating a dependency or relationship between the two.
