

arm_dct4_init_q31

```
graph LR; A[arm_dct4_init_q31] --> B[arm_rfft_init_q31]; B --> C[arm_cfft_init_q31];
```

The diagram illustrates a sequence of three initialization functions. The first function, 'arm_dct4_init_q31', is highlighted with a dark gray background. It is followed by 'arm_rfft_init_q31' and 'arm_cfft_init_q31', which have white backgrounds. Blue arrows indicate the flow from left to right between each function.
