

The diagram illustrates the CMSIS (Cortex Microcontroller Software Interface Standard) architecture. It features a large light blue rectangle with a dashed border. Inside this rectangle, the word "CMSIS" is centered at the top. Below it, there is a smaller light blue rectangle with a solid black border. This inner rectangle contains three elements: the word "Core" on the left, and two blue rectangular boxes with black borders on the right. The first blue box is labeled "Include" and the second is labeled "Template".
