

Support Functions

Convert 16-bit fixed
point value

```
graph RL; A[Convert 16-bit fixed point value] --> B[Support Functions];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The box on the right is gray and contains the text 'Convert 16-bit fixed point value'. The box on the left is white with a black border and contains the text 'Support Functions'. A black arrow points from the right box to the left box, indicating a flow or dependency.
