

arm_fir_sparse_f32

arm_fir_sparse_q31

arm_circularRead_f32

```
graph LR; A[arm_fir_sparse_f32] --> C[arm_circularRead_f32]; B[arm_fir_sparse_q31] --> C;
```

The diagram illustrates a functional dependency where two separate functions, `arm_fir_sparse_f32` and `arm_fir_sparse_q31`, serve as inputs to a single function, `arm_circularRead_f32`. The input functions are represented by white rectangular boxes, while the output function is represented by a gray rectangular box. Blue arrows indicate the direction of data flow from the inputs to the output.
